**INDEPENDENT ACCOUNTANT'S REPORT
ON APPLYING AGREED-UPON PROCEDURES**

The Honorable Board of Supervisors of the
County of Los Angeles, California

We have performed the procedures enumerated below to the accompanying Appropriations Limit Worksheet of the County of Los Angeles, California, (County) for the year ended June 30, 2011. These procedures, which were agreed to by the County and the County Accounting Standards and Procedures Committee (as presented in the publication entitled *Article XIII-B California Constitution Appropriation Limit Procedures Guidelines for California Counties*), were performed solely to assist the County in meeting the requirements of Section 1.5 of the Article XIII-B of the California Constitution. The County's management is responsible for the accompanying Appropriations Limit Worksheet. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings are as follows:

- 1) We obtained the completed worksheets setting forth the calculations necessary to establish the County's appropriations limit and compared the limit and annual adjustment factors included in those worksheets to the limit and annual adjustment factors that were adopted by resolution of the County Board of Supervisors. We also compared the population and inflation factors included in the aforementioned worksheets to those that were selected by a recorded vote of the County Board of Supervisors.

Finding: No exceptions were noted as a result of our procedures.

- 2) For the accompanying Appropriations Limit Worksheet, we added last year's limit to the annual adjustment, and agreed resulting amount to this year's limit.

Finding: No exceptions were noted as a result of our procedures.

- 3) We compared the current year information presented in the accompanying Appropriations Limit Worksheet to the worksheets described in Number 1 above.

Finding: No exceptions were noted as a result of our procedures.

- 4) We compared the prior year appropriations limit presented in the accompanying Appropriations Limit Worksheet to the prior year appropriations limit adopted by the County Board of Supervisors.

Finding: No exceptions were noted as a result of our procedures.

- 5) We compared the amount for the City of Diamond Bar reorganization adjustment to the resolution approved by the Board of Supervisors.

Finding: No exceptions were noted as a result of our procedures.

We were not engaged to and did not, conduct an audit, the objective of which would be the expression of an opinion on the accompanying Appropriations Limit Worksheet. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you. No procedures have been performed with respect to the determination of the appropriation limit for the base year, as defined by Article XIII-B of the California Constitution.

This report is intended solely for the information and use of the members of the Board of Supervisors and management of the County and is not intended to be and should not be used by anyone other than those specified parties.

COUNTY OF LOS ANGELES
Notes to Appropriations Limit Worksheet
For the Year Ended June 30, 2011

(1) 2009-10 Appropriations Limit Adjustments

The net Countywide adjustment of (\$51,093) was made to the previously reported 2009-10 Appropriations Limit. This property tax revenue transfer from the County of Los Angeles (County) associated with the City of Diamond Bar represents the negotiated exchange of property tax revenue resulting from the proposed annexation of unincorporated territory (Rowland Heights) to the City of Diamond Bar.

(2) Adjustment Factors

The County, as allowed by law, has chosen to use various population factors to compute its adjustment factors for the year ended June 30, 2011. The Countywide population factor uses the change in population within its jurisdiction, combined with the change in population within all counties having borders that are contiguous to the County. The population factor for each of the special districts is based solely on the change in population within the County. The County and each special district governed by the County Board of Supervisors chooses to use the percentage change in the California Per Capita Personal Income (CPCPI), provided by the California Department of Finance. Such factors are as follows:

Countywide:

CPCPI		0.974600000
Population Factor	x	1.006300000
Adjustment Factor		<u><u>0.980739980</u></u>

Special Districts:

CPCPI		0.974600000
Population Factor	x	1.004608308
Adjustment Factor		<u><u>0.979091257</u></u>

Calabasas and Malibu Lighting Districts and
Malibu Garbage Disposal Districts:

CPCPI		0.974600000
Population Factor	x	1.006300000
Adjustment Factor		<u><u>0.980739980</u></u>

(3) Calabasas and Malibu Lighting Districts and Malibu Garbage Disposal Districts

Calabasas and Malibu Lighting Districts and Malibu Garbage Disposal Districts are County subunits, not independent legal entities. Although their revenue is separately tracked, Malibu and Calabasas would only exceed their Appropriation Limit if the County exceeded its Appropriation Limit.
